

Materials:

- 1 3D Flower design from the 3D Flowers Large or Small Design Packs**
- Organza or linen fabric**
- Embroidery thread**
- Spray Adhesive or Fabric glue**
- Sharp Scissors (Optional: Large and Small)**

Please have the design color stop information in front of you and read through these instructions before starting.

You will need to know if the flower you have chosen has 2 or 3 layers of flower petals.

If the design has 2 layers, you will need 2 pieces of organza/linen fabric.

If the design had 3 layers, you will need 3 pieces of organza/linen fabric.

Below you will find a list of the designs with their file numbers.

There are 2 design packs listed below; 3D Flower Large and 3D Flowers Small.

The instructions below will work with both sizes.

2 Layers

Name	Large design	Small design
3D Flower #1	CD031910FA	CD032010FA
3D Flower #2	CD031910FB	CD032010FB
3D Flower #3	CD031910FC	CD032010FC
3D Flower #4	CD031910FD	CD032010FD
3D Flower #5	CD031910FE	CD032010FE
3D Flower #7	CD031910FG	CD032010FG
3D Flower #9	CD031910FI	CD032010FI
3D Flower #10	CD031910FJ	CD032010FJ

3 Layers

Name	Large design	Small design
3D Flower #6	CD031910FF	CD032010FF
3D Flower #8	CD031910FH	CD032010FH
3D Flower #11	CD031910FK	CD032010FK
3D Flower #12	CD031910FL	CD032010FL

Step 1:

**First hoop 1 piece of organza or
linen fabric in your hoop. Load
the embroidery file into your
machine.**

Step 2:

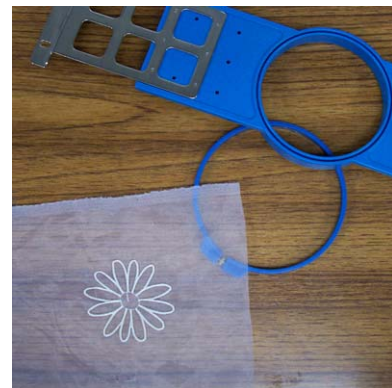

**Embroider the first color stop and
remove the hoop from your
machine.**

**(This is the top layer of flower petals for
the design.)**

Step 3:

Remove the fabric from the hoop.

Step 4:

Gently cut the organza away from the design by cutting along the edges of the outline stitches. (Be careful not to cut any of the stitches.)

Step 5:

Hoop another piece of organza.

***If your design had 3 layers, repeat steps 2 through 5.**

***If you only have 2 layers, continue to Step 6.**

Step 6:

Return the hoop to your machine and embroider the next color stop. (This will be the bottom layer.)

Step 7:

Use Spray Adhesive or Fabric Glue and apply to the center of the flower only.

Step 8:

2 Layer design: Place the top layer on the bottom layer. Use the lines in the center to line up the top and bottom layers.

Continue to Step 10.

3 Layer design: Place the Middle layer on the bottom layer. Use the lines in the center to line up the top and middle layers. Embroider the next color stop and stop the machine. **Repeat Step 8** with the top layer and place the top layer on the middle layer in your hoop.

Continue to Step 10.

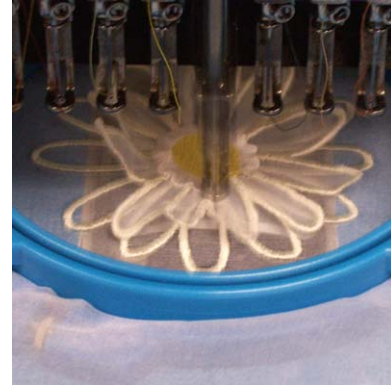

Shown in the picture above is a 2 layer design with the top layer placed on the bottom layer.

Step 9:

Start the machine again and embroidery the design until you have completed all of the color stops.

**(Stay at the machine for this step!
You may need to stop the machine and press down the top layer of petals as they may tend to curl up.)**

Step 10:

Remove the hoop from your machine. Remove the fabric from the hoop and gently cut the fabric away from the bottom layer of the design.

Be careful not to cut the stitches.

Step 11:

Now you have the completed design.

Thank you for your purchase.
