

Create a floral bouquet.

Materials:

- 3D Flower designs from the 3D Flowers Large or Small Design Packs**
- Straight Pins**
- Floral Tape**
- Stem Wire (20ga Green)**

Step 1:

**Bend one piece of the stem wire
in half.**

Step 2:

**Now wrap floral tape tightly
around the stem wire from
bottom to top.**

Step 3:

**Hold the flower face up and poke
a straight pin thru the center of
the flower.**

Step 4:

**Push the pin into the top of the
stem wire. The end of the needle
might stick out a little bit.**

Step 5:

Wrap floral tape tightly around the stem starting just under the flower and going to the bottom of the stem.

Step 6:

This flower is complete. Repeat the above process with as many flowers as you would like to fill your vase.

Create a pin or hair barrette.

Materials:

**3D Flower designs from the 3D Flowers Large or Small Design Packs
Pins and/or barrettes
Glue Gun**

Barrette Step 1:

Place the flower upside down, the apply glue to the center of the flower.

Step 2:

Quickly place the large end of the barrette top side facing down on the center of the flower. Hold it there for a little while until the glue cools.

Step 3:

Now you have a cute inexpensive floral barrette.

Pin Step 1:

Embroider the design.

Remove the hoop from your machine. Remove the fabric from the hoop and gently cut the fabric away from the bottom layer of the design.

Be careful not to cut the stitches.

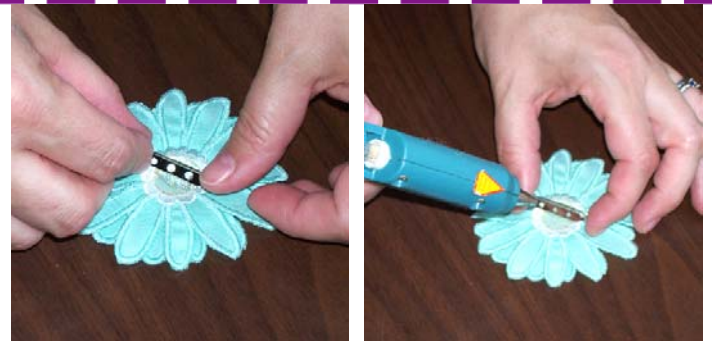

Step 2:

Turn the flower over and add a line of glue on the center back, about the same size as the pin.

Step 3:

Place the pin on the back and hold it for about 15 seconds. Then add a thin layer of glue over the pin base.

Step 4:

Now you have the completed pin.

Thank you for your purchase.
