

Materials to make 1 flag:

- Nylon Fabric 24" x 24" for the flag
- Appliqué pieces (you can use applique twill or nylon)
- Thread that matches fabric
- Fabric Marker
- Ruler

Directions:

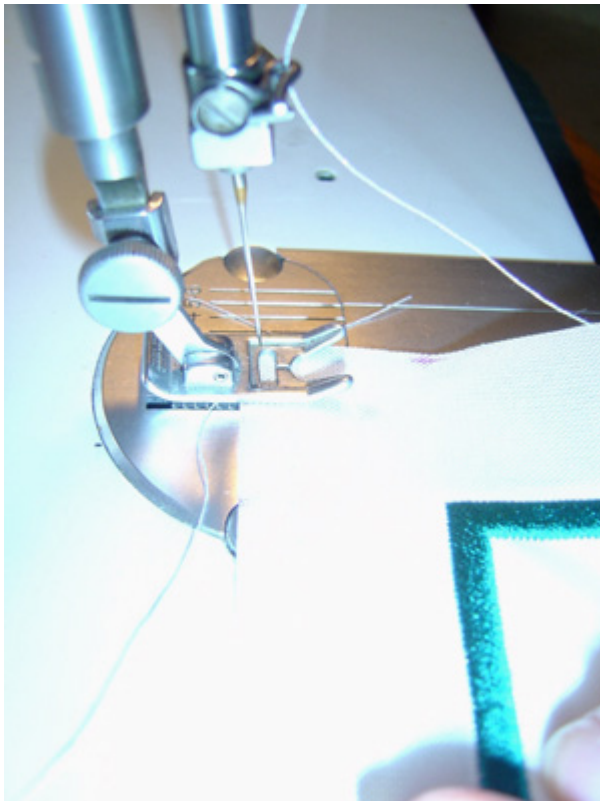

Embroidery the design in the center of the 24" x 24" nylon fabric. If you use nylon we suggest using a cutaway backing to eliminate the puckering you may get if you use a less stable backing. Also use spray adhesive to attach the backing to the fabric which will help it from slipping around in your hoop.

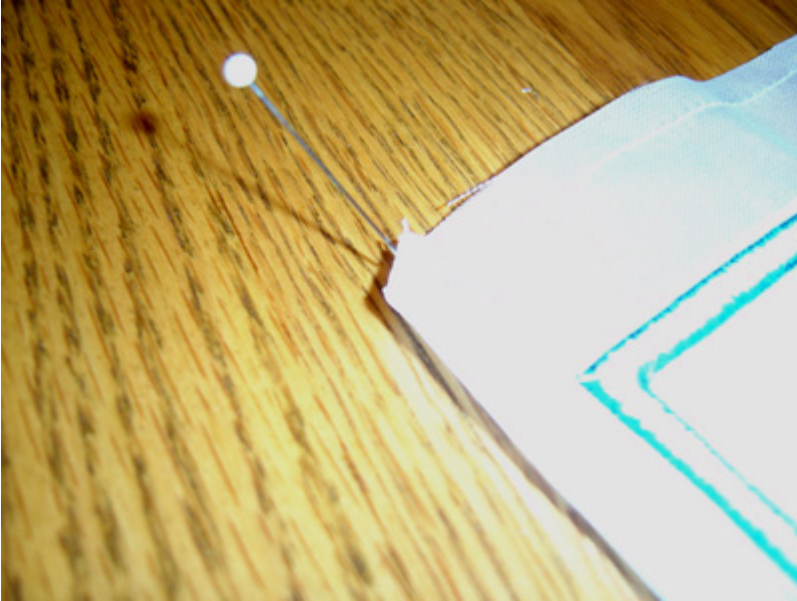

Once the design is sewn on the fabric, take your ruler and fabric marker and mark a line on both sides & the bottom of the fabric 1" away from the design.

On the top of the design measure 4" out from the embroidered design and make a line. Then cut away the outside fabric along the lines you have just made.

Run a single row of stitches $\frac{1}{4}$ " in from the raw edge all the way around the flag.

Roll a hem at the $\frac{1}{4}$ " line of stitching.

Sew sides first.

Then fold the corners in on the top & bottom, roll the hem at the $\frac{1}{4}$ " line and stitch a row of stitching along the hem edge.

At the top of the fabric fold the hemmed edge over so it just above the embroidered border on the backside and pin. Now run a line of stitching along the hemmed edge. You have now completed your flag and it is ready to hang.

Thank you for your purchase.
