

Materials:

1 Pirate Eye Patch Embroidery Design

Black Twill Fabric: 6" x 6"

Cut Away Backing: 6" x 6"

Black Braided Elastic ¼" wide

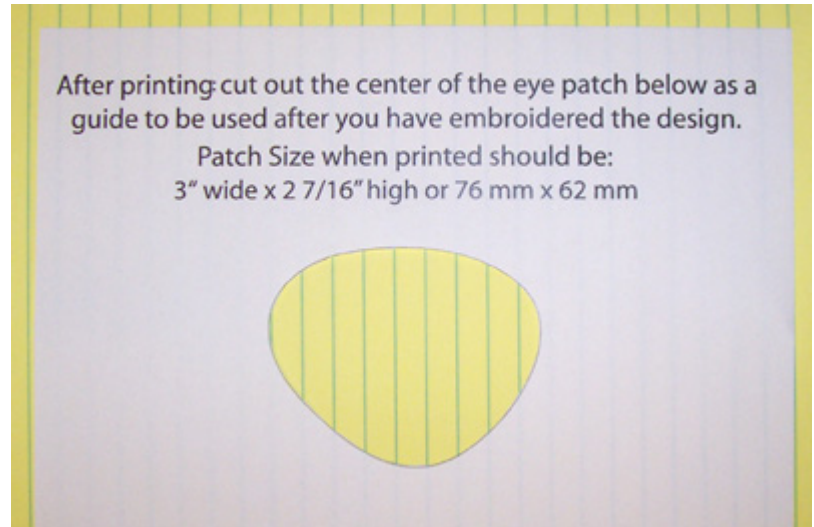

Fabric marker, pencil or pen

Thread to match fabric

Straight pins

Step 1:

Print the eye patch pattern that is on the last page and follow the instructions on the page. Then set it aside.

Step 2:

First hoop one piece of black fabric and cut away backing in your hoop. Then embroider the design of your choice.

Step 3:

Cut away the backing close to the design as shown in the small square picture on the right.

Step 4:

Now take the eye patch pattern that you have printed previously and place it over the back of the embroidered fabric. Draw around the patch pattern with the fabric pencil or marker.

(Placing the paper right side up will make the patch for the left eye. Place the paper upside with make the patch for the right eye.)

Step 5:

Then on the front of the embroider fabric you will draw the same patch pattern. This time flip the paper over and draw the outline. The mark an X on each side where you would like to place the elastic band. At the top draw two lines about an 1 ½” part. This area will be left open when you sew the design together.

Step 6:

Pin the elastic each end of the elastic band over the X's. Then pin the rest above and between the two lines at the top.

Step 7:

Place the embroidered fabric face to face with the second piece of black fabric.

Step 8:

Now sew along the line, do not sew between the two lines on the top as this is where you will turn the patch right side out. Re-enforce both sides of the opening and where the elastic bands are.

Step 9:

Cut the excess fabric off about 1/4" away from where you have sewn. When you get to the top cut each layer of fabric separately so you do not cut the elastic.

Step 10:

Turn the patch inside out. Use your finger to form the patch shape. At the top where it is open fold in the excess fabric and hand stitch closed.

Finished Pirate Eye Patch

Thank you for your purchase.

Print this pattern.

Then cut out the center of the eye patch below.

You will use it as a guide after you have embroidered the design.

Patch size when printed should be 3" wide x 2 7/16" high or 76 mm x 62 mm
