
Designs included in this project are:

Tooth Fairy: Tape No. CD010104BA

Tooth: Tape No. CD010104BB

The Tooth Fairy Pillow is a great way to carry on the tradition of the “Tooth Fairy”. The finished pillow has a little pocket in it where you would have your child place the tooth they lost in it at bedtime. Once the child is asleep you would remove the tooth and place some coins in the pocket where the tooth was. When the child awakens imagine their surprise at finding what their tooth has turned into overnight.

There are two designs which are needed to complete this project: “The Tooth Fairy” and “The Tooth Fairy Tooth” which is sewn on the pocket. Both designs need to be sewn on the material before the pillow is constructed. The instructions for making the pillow are listed below. The finished Pillow Size is 14.75 inches wide by 10.5 inches high. Also please look at the picture of the finished pillow to see how ours turned out.

Pattern directions:

Seam allowance: 1/4 inch

1. Fold fabric in half lengthwise with selvages together. Lay out pattern piece #1 (pillow) on double thickness of fabric, pin and cut out.
2. Unfold fabric and layout pattern piece #2 (pocket) on single layer of fabric, pin and cut out.
3. To make the pocket:
 - a. Machine stitch (long stitches) 1/4 inch from the unfinished edge around all four sides of the pocket piece to form a guideline for folding the edges when finishing the pocket.
 - b. Fold top of pocket piece to the wrong side of the fabric at the 1/4 inch guideline. Sew a 1/4 inch hem at the top of the pocket.
 - c. Fold the top of the pocket to the right side of the fabric at the fold-line and sew a 1/4 inch seam at each of the two ends of the fold. Trim seams at the corners of the fold to eliminate bulk. Turn top of pocket right side out.
 - d. Turn under sides and bottom edges of the pocket piece at the 1/4 inch guideline stitches.

- e. Pin pocket to a single pillow piece (pattern piece #1) following the placement markings on the pattern piece. Sew pocket to the pillow piece stitching close to the folded edge at the sides and bottom.
4. To finish the pillow:
- a. On the right side of the fabric of a single pillow piece, pin cording around all four edges of the pillow aligning the unfinished edge of the cording with the unfinished edge of the pillow piece. Do not overlap the cording at pillow corners. Sew cording to pillow piece 1/4 inch from edge of fabric.
 - b. Pin the two pillow pieces together (right sides of fabric together) and sew around all four edges of pillow at seam allowance (1/4 inch) leaving a 3 to 4 inch opening for stuffing pillow.
 - c. Turn pillow right side out. Stuff pillow with fiber fill or filling of choice.
 - d. Fold in 1/4 inch seam allowance at opening and hand stitch (slip stitch) pillow closed.

Thank you for your purchase.
